

## Coleman Hereford's Footnotes

### Lot 26

212: If you can handle a little extra birthweight 212 should sire a lot of growth and performance into his calves. He strides out well and was our high indexing bull. PAP 39

### Lot 27

215: 215 is a thick made, deep bodied bull out of a outstanding 1161 daughter. PAP 36

### Lot 28

217: 217 has good length and a lot of muscle. PAP 36

### Lot 29

219: This bull is double bred to the great 055X Cooper cow. He has ratio'd very well and has a solid set of numbers. His dam is a 215Z daughter with a fantastic udder. PAP 39

### Lot 30

220: Another deep bodied, thick made 8044 son. His dam is a great looking 0132X daughter and is a favorite in our herd. PAP 38

### Lot 31

221: 221 is a attractive, well marked, long bodied son of the Holden 0022H bull. He is out of one of our top cow family's. PAP 51

### Lot 32

229: Here's a calving ease bull that is thick and deep sided. His dam always brings in a top calf. PAP 37

### Lot 34

242: 242 is moderate framed, has a lot of length and has extra thickness. He may be the thickest in our offering. His dam is a heavily pigmented 5233 daughter that always brings in a nice thick calf. PAP 42

### Lot 35

245: Here's a attractive 6006 son that's deep ribbed and well marked. PAP 35

### Lot 36

249: This moderate framed 6006 son should make a good heifer bull. PAP 38

### Lot 37

257: Another moderate framed 6006 son that should make a good heifer bull. We used 6006 on heifers and his calves came very easy. We think most of his sons should work well on heifers also. PAP 35

### Lot 39

264: Moderate framed 6006 son that should work well on heifers. PAP 38

### Lot 41

275: There's a lot to like about this 8044 son. He's well made and has performed well. His dam is an outstanding 1161 daughter! She is picture perfect with a bold rib and excellent udder.
